

JWI-530 waterproof indicator

- Waterproof complete sealed PCB design, IP68
- Pre-tare, check weighing, accumulation, dynamic weighing, and low battery prompt functions
- Single point and linear calibration function
- Auto shut off for power saving
- Select the filter level according to the use environment
- RS232 as an option
- Ideal for application in sea food, high humidity environment, and food processing industries

Model	JWI-530
External Display Accuracy	1/12000 or 1/15000
Weighing units	g, kg, lb, lb.oz, pcs
Display (mm)	6 digits, LED red character display, height 25 mm
Input Sensitivity	0.2 microvolts/div
Input voltage range	-2 mV~20 mV
Sensor excitation voltage	DC 5V, can be connected to 4x350 ohm sensors
Non-linearity	0.003% of full capacity
Input resistance	Greater than 10 x 10 ⁶ ohms
Conversion method	Δ - Σ
Internal resolution	700,000
Conversion output period	About 6~10 times per second
Power supply	AC: 110/220V, built-in lead-acid battery (6V/4Ah)
Dimension (mm)	237 x 132 x 152
